

Dr. Rong-Gen Cai, was born on 20 Sept, 1964 in Zhejiang Province, China, Professor and Director of the Institute of Theoretical Physics (ITP), Chinese Academy of Sciences (CAS), Academician of CAS, fellow of the International Society of General Relativity and Gravitation (ISGRG). In 1985 he graduated from Hangzhou Normal University with a bachelor's degree in Physics. In 1995 he received his Ph.D degree from Fudan University, China. Then he did postdoctoral research successively at the ITP-CAS, the Center for Theoretical Physics of Seoul National University, Korea, and Physics Department of Osaka University, Japan. He joined the ITP-CAS as a faculty in 2001. He was awarded the distinguished young investigator grant of the National Natural Science Foundation of China in 2003. In 2011, he was awarded the second place of National Natural Science Award. In 2014, he was awarded the Thomson Reuters Highly Cited Researchers and was selected as the Elsevier's Most Cited Chinese Researchers through 2014 to 2019. In 2016 he was selected by the Ten Thousand Talent Program of the Central Government of China. He is now a standing committee member of Chinese Physics Society (CPS), president of the division of gravitation and relativistic astrophysics of CPS, council member of the International Society of General Relativity and Gravitation, vice-chairman of the division of the gravitation, astrophysics and cosmology of AAPPS, president of the association of gravitation, astrophysics and cosmology of the BRICS countries, and a council member of APCTP. He serves as the associate editor-in-chief of SCIENCE CHINA (Physics, Mechanics & Astronomy) and Communication of Theoretical Physics. He is also the editorial board member for some journals such as Mod. Phys. Lett. A, Int. J. Mod. Phys. D, Adv. High. Phys., Chinese Science Bulletin, Research etc. He was the member of Advisory Panel of Class. Quant. Grav..

Dr. Cai's research field is gravity and cosmology. So far he has published more than 300 papers, those papers are cited more than 19000 times, his H index is 76.
